NILES IN HISTORY

WHO PRECEDED the Ottawas, Miamis, and Potowatomi Indian tribes in this region is not established. Evidences of the Mound Builders are to be found in adjoining sections. The arrival of the Potowatomies is determined about 1721, when they left Green Bay region in Wisconsin, and moved into the river valley of Southern Michigan. The "Ordinance of 1787" marks the beginning of the important history of Michigan territory. At the close of the Revolutionary war, England yielded Michigan to the United States, and in 1787 it became a part of the Northwest Territory.

1787—July 13, Ordinance of 1787 adopted, governing the Northwest Territory. Its most important features were, exclusion of slavery, provision for one thirty-sixth of land for school purposes and a proviso that prohibited the enactment of any law to nulify pre-existing contracts. This ordinance covered the territory from which were formed the states of Ohio, Indiana, Michigan, Wisconsin and Illinois. October 5, Major Arthur St. Clair was elected governor of this territory.

An old geography published in 1793 in the hands of the publisher of this directory gives the white population of all the Northwest Territory at 7820. Indiana population estimated at 65,000.

The following brief summary by years will be found valuable as a matter of reference:

1669—First visit of civilized men to Berrien County. Miami River named by Catholic priests Allouez, Marquette and Dublou.

1679—A trading post and mission established at the mouth of the St. Joseph River when LaSalle traveled this region. A mission founded a mile above Niles and a fort called Fort Oola was built for protection against the Indians.

1697—The French built a fort on East side of the river. The original site is marked by a boulder near the Allouez Monument in S. Niles.

1721—Charlevoix visited fort.

1760—(About)—LaClare, a Frenchman, located where Bertrand village now stands. He built a small blacksmith shop and traded with the Indians.

1761—After fall of Quebec and Montreal a British regiment captured Ft. St. Joseph.

1763—Fort taken by the Potowatomies when Pontiac waged his war of extermination against the English.—Massacred the garrison.

1775—Burnett started a trading post at the mouth of the river and his son succeeded him. Joseph Bertrand at the same time established a trading post near LaClare. This was kept up for more than 50 years.

1781—A Spanish expedition from St. Louis, crossed Illinois on foot and captured the fort and raised the Spanish flag.

1804—Government decided to build a fort on Lake Michigan. A commanding site on the St. Joseph River near Lake Michigan was selected. Preparations were made to erect the same when the Indians held a council and decided that the lands had not been ceded to the government. Upon their protest the location was moved to a different site and Fort Dearborn was established.

1805—Territory of Michigan was formed with the seat of government at Detroit. Wayne County was first formed. Gen. Wm. Hull was appointed Governor of the territory.

1814—Total population of the state, 4762.

1816—Boundary line of Indiana established as running due east and west from a point 10 miles north of the southern extreme of Lake Michigan.

1821—First of three treaties, by which the United States obtained from the Indians the territory now embraced in Berrien County, was made. First treaty of August 29, 1821, was made by the Ottawas, Chippewas and Potowatomies. This ceded all of southwestern Michigan except that part of Berrien County lying between the river and the lake. The Treaty of Chicago negotiated personally by Gen. Cass provided as follows: The government to pay to the Potowatomies $5,000 per year for twenty years and $1000 per year to support a blacksmith shop and provide a teacher; and to the Ottawas $1,000 per year forever and $1,500 per year for the support of a blacksmith, teacher and farmer.

1822—Rev. Isaac McCoy, a Baptist missionary, established what was known as Carey Mission. It was a mission school for the Indians. After the first few years it was practically self-supporting. Finally when settlers came and the Indians moved farther west the mission was moved and established in Missouri in 1832. Carey Mission opened (December) Mission buildings constructed in October and November. The advance party consisted of 22 persons. By May, 1823, six houses were built, 50 acres fenced and cleared of which 40 acres were planted. Major Calvin Britain, once lieutenant governor of Michigan, was for some time one of the teachers. He was a pioneer settler at St. Joseph, where he lived and died. At the time of the establishment of Carey Mission the valley of the St. Joseph was an unbroken wilderness from the source of the river in Hillsdale County to its mouth, a distance of 200 miles.

1823—Squire Thompson was the pioneer farmer of the St. Joseph Valley. He came from Ohio in this year.

1824—James Kirk, second white settler, came in the spring. Baldwin Jenkins, Benjamin Potter and Nathan Young soon followed.

1825—Rachel Thompson (Mrs. Rachel Weed), was born. First white child born in the county. The government ordered a 100-foot road surveyed from Fort Wayne at Detroit to Fort Dearborn, Chicago, as a military necessity in order to bring the two forts closer together, the trip around the lakes being too long. An effort was made to build an air line road, but so many swamps and lakes made this idea impossible and the road was located on the old Indian trail, which explains the winding of the highway today. The Chicago Road is reported to be the longest road in the United States without a sharp turn on a drive of 299 miles.

1826—A half dozen families were located at Niles due to the establishment of Carey Mission. Grist mill built at Cary Mission, the only one within 100 miles.

1827—John Johnson was the first settler within the present boundaries of Niles.

1828—Second treaty September 28 at Carey Mission. The Potowatomies ceded that part of Berrien County lying west of river, except a tract of land lying between the river and a direct line running from the state line, in the southeast corner of Galien, to the river in section 12, Buchanan. Eli Ford built and operated the first water power grist mill in Berrien County and soon after built the first saw mill. Eli Bonnell and Mr. Teitsort settled in Niles. Mr. Bonnell built a log house. This was the first dwelling in Niles.

1829—At a land sale at Monroe, S. B. Walling as an agent for Wm. Justice purchased the land upon which the business section of Niles now stands. Mr. Justice deeded all that portion lying south of Main Street to Elijah Lacey for the convenience of giving titles, although Ephriam Lacey and Mr. Walling were equal partners. The village was laid out and the plat recorded during the summer. The founders gave the village its name in honor of Hezekiah Niles, editor of "Niles Register" of Baltimore, Md., an influential publisher. Morgan Wilson erected the first tannery in the village. Col. Alamanson Huston bought a house of Mr. Justice and fitted it up for a tavern. First government survey in Berrien County. First entry June 20.

1830—July 4, Independence was first celebrated. Population 335. Declaration of Independence read by Col. Edwards of Edwardsburg and dinner prepared by Col. Huston. Titus B. Willard taught school in his house. He was Niles' first school teacher. The first store was opened by Lacey and Walling.

1831—Dr. Erasmus Winslow, Niles' first physician came. The county was organized, receiving its name from Hon. John M. Berrien, attorney general in Jackson's cabinet. The county comprised but two townships, Niles and St. Joseph. The first deed was recorded at 4 P. M., Nov. 27; Eber Griswold and Marinda, his wife, to Wm. Liston. Obed P. Lacey was the first register.

1832—Chicago Road built to Niles. Carey Mission removed to Missouri. First Episcopal Church services held by Bishop Philander Chase.

1833—Third treaty Sept. 26 at Chicago ceded, among other tracts, the Niles reservations, the Indians receiving in place of them lands beyond the Mississippi. First court was held at Niles, the County Seat. Cogswell K. Greene, first attorney in Niles.

1834—March 18, Presbyterian Church organized. Trinity Episcopal Church was organized.

1835—Sept. 5, The first newspaper, "The Gazette and Advertiser," a Democratic weekly, was issued.

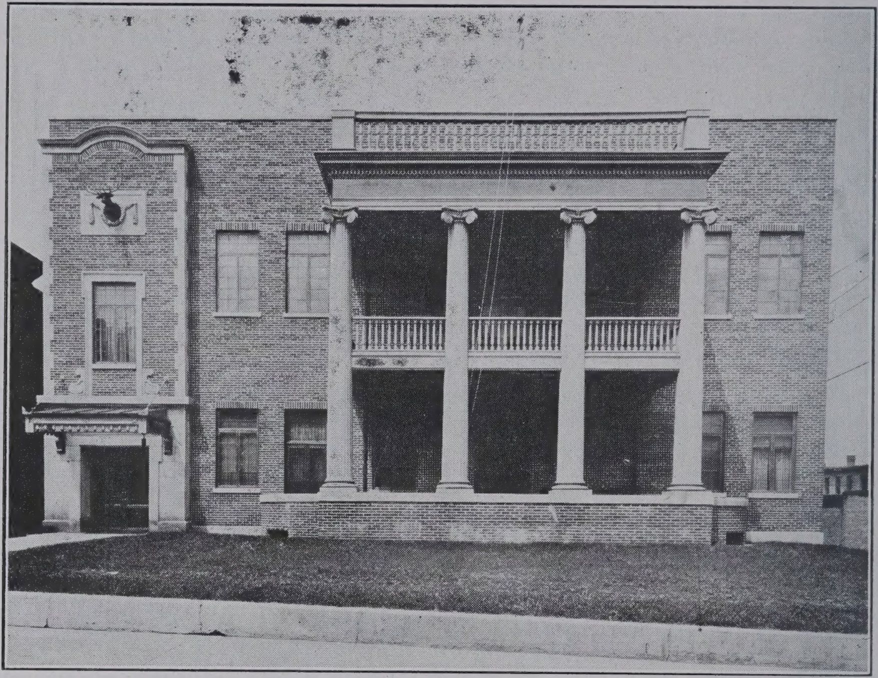
1836—June, Harriet Martineau "In Travels in Michigan" says Milton must have traveled in Michigan before he wrote the garden part of "Paradise Lost." The drive from Sturgis to White Pigeon Prairie and thence to Niles is described as though a wilderness of bowers, trailing roses, enormous convolvulus, scarlet lilies and ground ivy. She described the Indian women on the streets of Niles. Some with nose rings, silver plates on their bosoms and other barbaric ornaments on their person. St. Joseph River was crossed by a rope ferry of ingenius construction. The effect of crossing at night with lights from torches was very bewildering. Bank of Niles established. Broadway bridge completed. Methodist Episcopal Church organized.

1837—Many deaths occurred from ague or "the shakes." "Wild cat money" caused unsettled business conditions. Court was transferred to Berrien Springs.

1838—Niles incorporated.

1839—Court House built in Berrien Springs. 1893 court moved to St. Joseph.

1840—The last of the Potowatomies were removed to the West, only a few stragglers remaining.



Elks Home—Niles, Michigan

1842—St. Joseph Valley Lodge No. 4, F. & A. M., organized.

1843—Berrien County Lodge No. 6, I. O. O. F., organized.

THE PLEDGE TO THE FLAG

I pledge allegiance to the flag of the United States of America, and to the Republic for which it stands. One Nation indivisible, with liberty and justice for all.

◆

THE AMERICAN CREED

I believe in the United States of America as a government of the people, by the people, for the consent of the governed, a democracy in a Republic a Sovereign Nation of many Sovereign States; a perfect Union, one and inseparable; established upon those principles of freedom, equality, justice, and humanity for which American patriots sacrificed their lives and fortunes.

I therefore believe it is my duty to my country to love it; to support its constitution, principles of freedom, equality, justice, and to obey its laws; to respect its FLAG, and to defend it against all enemies.

◆

FLAG ETIQUETTE

1. Do not permit disrespect to be shown to the Flag.

2. The Flag should never be allowed to touch the ground.

3. The Flag should be displayed from sunrise to sunset only.

4. When carried with other flags, the Flag should be in front or on the right.

5. The Flag should always fly at the top of the staff except when at half mast for mourning.

6 When the Flag is displayed against a wall, either vertically or horizontally, the field of stars should be up and to one's left when facing the Flag.

7. When displayed across a street, the Flag should be suspended vertically, with the field of stars to the north or east.

8. Never use the Flag for drapery of any kind, on an automobile, on a speaker's table, etc. Use bunting instead.

9. Do not put lettering of any kind on the Flag.

10. Do not use the Flag in any form of advertising.
